

# SHINE P PATHROSE

shineppathrose2002@gmail.com | +91 9048669265 | Bangalore, Karnataka | LinkedIn

---

Computer Science graduate currently working as a Graduate Apprentice Trainee at U R Rao Satellite Centre (ISRO). Experienced in full-stack web development and RESTful API design, proficient in Python, Django, and modern web technologies (HTML, CSS, JavaScript). Skilled in database management, version control, and machine learning concepts. Strong problem-solving abilities, fast learner, and effective team collaborator focused on building scalable, user-friendly applications.

## PROFESSIONAL SKILLS

---

- Programming: Python, JavaScript, PHP, C++
- Backend: Django, Flask, RESTful APIs, Fast API
- Frontend: HTML, CSS, Bootstrap
- Databases: MySQL, SQLite
- Tools: Git, GitHub, Postman, Excel, Figma, Linux, RHEL

## WORK EXPERIENCE

---

### Graduate Apprentice Trainee | ISRO, Bengaluru

Aug 2025 – Present

- Developed the **project Feedback Directory web application** to manage project observation using technologies such as HTML, CSS, Bootstrap, PHP, MySQL, JavaScript, and Python.
- Implemented secure login, dynamic project navigation and a file management system for uploading and organizing project documents.
- Automated scraping of project issues with Python, providing real-time updates to the platform
- Enabled users to view detailed project observations and manage related files with options to view, download, or delete

### Project Management Web Application | Controls System Group

- Developed an internal **Project Management Web Application** for the Control Systems Group to streamline project planning, task management, and workflow tracking.
- Built RESTful APIs and backend services using **Python** and **FastAPI**.
- Developed responsive user interfaces using **HTML5, CSS3, Bootstrap, and JavaScript**.
- Designed and managed the application database using **SQLite**.
- Implemented user authentication, role-based access control, and project management features.
- Collaborated with engineers to gather requirements, test, debug, and optimize the application.

### Technical support staff | Miss India

Jun 2025 - Jul 2025

- Proactive technical professional skilled in maintaining systems, networks, and websites while providing efficient technical support.
- Assisted in troubleshooting and maintaining IT infrastructure to ensure smooth operations.

### Full-stack developer intern | Moonhive private Limited

Nov 2024 - Feb 2025

- Managed both back-end and front-end aspects of the development process.
- Developed and maintained web applications using Python, Django, HTML5, CSS, Bootstrap, JavaScript, and SQL.
- Created and optimized RESTful APIs for seamless data integration.
- Ensured smooth functionality and performance across all application components.

## PROJECTS

---

### Employee leave and Attendance management system

- Built a Django-based system to manage attendance, leave requests, and LOP tracking.
- Implemented role-based access control with separate dashboards for admins and employees.
- Developed RESTful APIs to perform CRUD operations on attendance and leave data.
- Integrated secure authentication and user management features.
- Designed a responsive, user-friendly interface enabling efficient workforce management and real-time monitoring.

### Snapbazaar | E-commerce web application

- Developed a fully functional e-commerce platform with product listing, search, and cart management features.
- Implemented user authentication, profile management, and dynamic navigation to enhance the overall user experience.
- Improved the UI/UX with a responsive design, optimized image rendering, and an intuitive search interface.
- Designed and managed a robust Product model with essential fields like name, description, price, created\_at, and updated\_at.
- Integrated backend APIs for seamless data communication between frontend and backend.

### Mangalam hope pipes assessment | frontend developer

- Developed a responsive corporate website using HTML5, CSS3, and JavaScript.
- Built interactive product showcase, FAQ, certification, and contact sections with modern UI/UX principles.
- Implemented mobile-first responsive design, cross-browser compatibility, and optimized website performance.
- Managed source code and deployment using Git and GitHub.

## EDUCATION

---

- |                                                                                                                                         |      |
|-----------------------------------------------------------------------------------------------------------------------------------------|------|
| • Bachelor of Engineering - Computer Science and Engineering 2020 – Vins Christian College of Engineering, Anna University   CGPA: 7.96 | 2024 |
| • Higher Secondary School – Computer Science 2018 - Evans H S S Parassala   Percentage: 67%                                             | 2020 |
| • SSLC - Samuel L M S H S Parassala 2017 - Percentage: 82%                                                                              | 2018 |

## CERTIFICATIONS

---

- Python Full Stack Development Certification – Bootstack Academy
